Fax: 336-983-9428

Important Info

- Your student is bringing home a field trip permission slip to visit Priddy Manor. Please sign it and return to school on Monday.
- On **Wednesday, October 4**, we will present our play of *The Little Red Hen*. It will begin at 1:00 in the classroom. Parents and grandparents are invited to attend.
- In order to prepare for our play, we will need for students to stay after class on **Wednesday, September 27** from 2:30-3:30. Please fill out the note (on the return to school side) to let us know whether or not your student will be able to stay so that we can best plan our time.
- If you have a chance, please check out the new WMOES news station. The video is on the Mount Olive Elementary school website (<http://www.mountolive.stokes.k12.nc.us/>). Our class will be featured on next week's webcast.

A Peek At Our Week

We have had a fabulous week of learning. On Constitution Day we met around the school flagpole, watched the flag being raised by ROTC students from West Stokes, listened to the Chestnut Grove band, and saw a reader's theater by Mrs. Layman and other teachers. We enjoyed meeting special community leaders in our classroom this week. On Wednesday, we were joined by Mrs. Westmoreland's and Mrs. Young's second grade classes to interview Mayor Jack Warren. On Friday Dr. Brad Rice, Stokes County Schools Superintendent, visited our classroom. Our students asked lots of great questions, and we learned lots of new things.

Reading: We finished our beginning of the year reading assessments this week. Our class has worked on reading several versions of *The Little Red Hen*.

Math: Guided math groups continued this week. A part of our math workshop includes working with Moby Max. On Monday, our students will begin competing school-wide to see how many minutes we can work on the program. Also, Funday Friday will begin next week, and our students will be able to use the game time they have accrued while working with Moby Max subjects. We hope your child is able to access Moby Max at home.

Social Studies: Our students have been able to synthesize the information they learned from our textbook and our non-fiction articles when interviewing our special guests this week. We are so proud of the awesome questions they asked!

Science: We are beginning to learn about living and non-living organisms.

Have an enjoyable and restful weekend.

Mayor Jack Warren Tells About His Job
